

What's New!

for the week of November 9, 2009

This is a quiet week for Project Linus. We would like to take this time to remember our Veterans—living and dead as we **celebrate Veteran's Day on Wednesday.**

Next Monday, Nov. 16th is a Project Linus day at Sew Unique in Mt. Shasta. These ladies have turned in several completed quilts from Make A Difference Day.

Next Tuesday, Nov. 17th will find us in Goose Tracks in Lakeview. Come join us for either of these sew days.

I hope you all find some time to work on your holiday projects **for your family and friends. I'm trying, but the day seems to slip away from me before I get much done.**

This quilt was done by Florence Ball from our Medford group. Thought you might like to see some of the blankets that are turned in.

How to save your appliqué templates: Purchase 5 x 7 brown envelopes or larger. Label envelope front- Pattern, Date, Content. Use your templates to draw on front of envelope the pattern and insert templates in the envelope. This way you will know exactly what your templates in the envelope look like if you choose to use them again.
